

High performance monitoring with AWARE

High-performance efficiency is everything. Become more agile in monitoring your business performance with AWARE. Get real-time data at the touch of a button with direct access to R-M Productivity Program, color management tools as well as your existing bodyshop management system.

AGILIS®

Perfection
made simple

Track your performance with **AWARE**

With AWARE, the web-based KPI reporting tool, you always have a clear overview of the performance of your business. At the touch of a button you'll get key figures on topics such as cost-effectiveness, environmental benefits and social responsibility. It also includes the data from your R-M Productivity Program, your integrated color management software and interface with your existing bodyshop management system.

Your benefits

- Profit from the expertise of our R-M consultancy team
- Monitor your business in real time with your customized KPI's
- Get approved for your performance with AGILIS

An industry-leading product line up is just the start. With AGILIS our core mission is to make your day-to-day work easier and faster by streamlining every single process. High-performance efficiency is everything.
